

# HEALTHCARE

Enabling a world that can trust wireless connectivity to be simple.

**GXC ONYX** is an all-encompassing private cellular network for hospitals, providing secure, high-bandwidth connectivity among medical devices and systems for real-time patient data access, improving care. Its built-in security protocols protect sensitive data, while the scalable, mesh-based architecture offers a resilient, future-ready infrastructure. Easy to deploy and manage, it seamlessly integrates emerging technologies like telemedicine and AI diagnostic tools, driving healthcare enhancement and digital transformation.

## Benefits of GXC ONYX

### Improve Efficiency

Create faster, more reliable communications and operations, reducing downtime and costs

### Secure Data

Ensure data is collected reliably and securely, without interference from other networks or devices

### Complete Coverage

Provide unparalleled connectivity and coverage at a low-cost vs. public networks, satellite or Wi-Fi

### Cost Effective

Lower network management cost, reduce downtime, and optimize energy usage and waste

## Use Cases for Industrial Manufacturing

Enhanced security and privacy protection

Secure wireless M2M data transmission

Imaging and diagnostics wireless data share / storage

Network segmentation for sensitive information

Seamless network coverage both indoor and outdoor

Real-time video surveillance and facility security

Augmented Reality and Virtual Reality applications

Flexible wireless network architecture for data applications

Secure messaging and notifications

Secure hospital access control for patient privacy

## Mesh Delivers Connectivity Anywhere

GXC offers the world's only patented mesh-based private cellular network, providing the industry's most versatile deployments. Experience the advantages of GXC's innovative approach:

- Rapid, cost-effective network deployment
- Easily move, relocate, or repurpose your network
- Rural internet access without LAN/fiber installed

## Get Started Today

Contact us today to request a personalized demo or learn more about our solutions. Let's explore how our innovative technology can transform your business and drive your success. Don't miss out on the opportunity to elevate your operations—reach out to us now!
